Steal Like an Artist

Austin Kleon

You don't need to be a genius, you just need to be yourself. That's the message from Austin Kleon, a young writer and artist who knows that creativity is everywhere, creativity is for everyone. A manifesto for the digital age, this guide offers a positive message, graphic look and illustrations, exercises, and examples that will put readers in touch with their artistic side. Stay smart, stay out of debt, and risk being boring.

Show Your Work!

Austin Kleon

In a forward-thinking and necessary book, Kleon shows how to take that critical next step on a creative journey—getting known. This is about why generosity trumps genius. It's about getting findable, about using the network instead of wasting time "networking." Filled with illustrations, quotes, stories, and examples, *Show Your Work!* offers ten transformative rules for being open, generous, brave, productive.

The Syntax of Objects

Tim McCreight

In 2005, Tim McCreight wrote *The Syntax of Objects*, his first foray into the genre called creative nonfiction. His elegant book consists of short musings on the relationship we have with the objects in our lives. As a maker of objects, he wonders out loud about the way our memories and senses relate to decisions about what we make and how we go about making choices in the studio and in our living material world. The revised edition uses the same text, but packages it in a smaller and thicker volume. The new *Syntax* augments the text with pinhole camera images like the original edition, but this book includes more of them.

Surface Treatment Workshop

Explore 45 Mixed-Media Techniques

Darlene Olivia McElroy & Sandra Duran Wilson

Surface Treatment Workshop provides you with an impressive amount of techniques and ideas for mixed-media surface treatments. Traditional techniques as well as new applications that have not been explored in other books such as the use of WonderUnder, pulled paper and plaster-dipped gauze are explored. Extensive examples from both artists show how the same techniques can be used to yield very different results, and troubleshooting will guide you into endless applications for your own artwork.

Priscilla Sage

1958-2008 Fifty Years of Sculpting

Maureen Mills

Priscilla Sage has spent the past fifty years pushing the boundaries of textiles and fiber into the realm of sculpture and fine art. As a child, Priscilla Sage was fascinated by the whorls of seashells, the pattern of scales in pinecone, and the sequence of petals on a flower. The longer she looked, the more human existence and the nature of the universe became part of one consistent whole. This relationship between humans and nature is an underlying theme of Priscilla Sage's body of work. This publication examines the artist's career and illustrates her evolution as renowned fine art sculptor, teacher and mentor.

On Body and Soul

Suzanne Ramljak

From the beginning of time, armor and amulets have been used for protection and are found in cultures across the globe, and those who crafted them have been esteemed as artists by their communities. The contemporary examples showcased here, in 200 eye-catching images, demonstrate the enduring artistry of the forms and the crucial role such objects can play in safeguarding body and soul, especially in our current Age of Terror. An exciting array of protective hardware (armor, barriers, wearable weaponry) and protective "software" (charms, amulets, talismans), reveal a broad range of strategies for human defence.
